

Uva Chapter Meeting-2024.05.06

On the 6th of May, 2024, the Uva Chapter of College of Surgeons of Sri Lanka organized their regional meeting for surgeons at the serene backdrop of Bandarawela, drawing participation from various hospitals including TH Badulla, BH Diyathalawa, BH Monaragala, and DGH Nuwara Eliya. This event marked a notable gathering, fostering collaboration and addressing regional concerns among the surgical community.

The meeting witnessed the esteemed presence of the President and the Secretary of the College of Surgeons of Sri Lanka, who represented the college and provided their valuable insights and guidance. Their participation underscored the importance of regional engagement and support for the surgical fraternity.

The discussions during the meeting were robust and productive. Surgeons from the area shared their experiences, challenges, and solutions, aiming to enhance the quality of surgical care in the region. Key concerns included resource allocation, training opportunities, and the need for improved facilities and support for rural hospitals.

Following the formal discussions, attendees were treated to a fellowship and dinner, which provided an excellent opportunity for informal networking. The dinner not only strengthened professional bonds but also highlighted the spirit of unity and collaboration among the surgeons of Uva province.

The Uva Chapter meeting on 6th May 2024 was a resounding success, paving the way for continued dialogue and cooperation among surgeons in the region. It reinforced the commitment of the College of Surgeons of Sri Lanka to support and uplift surgical practice across the country, especially in the more remote areas.

We look forward to more such engagements that bring together the surgical community to share knowledge, address challenges, and celebrate the spirit of collegiality.

Basic Surgical Skills Course by UVA Chapter Badulla

2024.05.07

The Uva Chapter of College of Surgeons of Sri Lanka on 7th May organized a highly successful workshop on Basic Surgical Skills at Badulla. This event saw enthusiastic participation from 79 Senior House Officers who are at an initial stage in their surgical training.

The workshop was designed to provide a comprehensive learning experience, combining theoretical knowledge with practical skills. The agenda included short lectures, live demonstrations, and extensive hands-on training sessions. These activities were aimed at equipping the participants with fundamental surgical techniques and enhancing their confidence and competence in the operating room.

A key highlight of the workshop was the involvement of more than 15 experienced surgeons from regional hospitals, alongside the esteemed President of the College of Surgeons of Sri Lanka. Their expertise and dedication significantly enriched the learning experience, offering valuable insights and personalized guidance to each participant.

The workshop not only fostered the technical development of the SHOs but also encouraged a spirit of collaboration and professional growth. The feedback from the participants was overwhelmingly positive, with many expressing gratitude for the opportunity to learn from such a distinguished group of professionals.

This event underscores the College of Surgeons of Sri Lanka's commitment to advancing surgical education and ensuring that in the future the care received by the patients at the operating theatre is optimum. We look forward to organizing similar workshops in the future covering all the provinces to continue supporting the development of our junior colleagues.
